A " HOME " FOR NEWSBOYS.-Last winter A "Home" rote Nawsnorn,—Last winter a number of philanthropic ladies, with Mrs. Seastor Wilson of Nassachusetts, at their head, organized an association for the relief of newsbors who might be without a place to board and lodge. Application was made to Congress for permission to erect on some of the public grounds a building suitable for a "Homo" for this class of our population. The National Legislature parsed the desired hill with alacrity; but, until very recently, no steps have been taken to benefit the newsboys by the liberality of Congress.

too much praise cannot be avaised, have acters ind to use the privileg granted them by Congress by eccting a comfortable 'home' on Armor square near the canal. This will be a convenient location, and is a work of practical christianity, which will prove a blessing to those engaged in it as well as to those whose temporal good is had in view in its inauguration.

The Golden Ade of Enterprise.—Since the creation of the world, no era has been so distinguished for its valuable discoveries as the XiXth century, and no people more enterprising from those of America. Though this is an age of magnificent projects, yet many of these projects, however, which have for their immediate object the greatest benefit of the buman race, fall in accomptishing the desired end. For instance, the labors of temperance lecturers, reformatories for inchristers, philanthropists, &c., have had but little success on the general mass of mankind. We are in hopes, however, that at last we have the right man in the right place. We refer to Mr. Sper, of New Jersey, whose celebrated Saubnel wine promises to supersed all the alcoholic poisons in the country. As a wine it is healthy, innocent and decirated with a proved survey for its mainty without the victions.

We speak advisedly, having tried it ourselves.

To persons who are weak and sickly, the use of the Sambuci wine will restore their health and strength. Physicians, olergymen and temperance advocates should encourage the use of the Sambuci wine, and thus aid the cause of temperance and moderation. We especially recommend it to families for its purity, equisite flavor and healthy properties. Medical men certify to its valuable medicanal powers. We understand that Mr. Speer has been for years engaged in preparing and perfecting it, and that it requires a four years' process before it is it for the market.—N. Y. Saprist.

FORD's New THEATRE.—The first week of the Webb sisters has now drawn to a close, and it can be asserted that, though coming to us utter strangers, they have created more excitement among the drama-loving inhabitants of Washington than any star the present season has produced. Little Ada, with her inimitable songs and dances, has become a favorite with the old and young of both soxes. Miss Emma, at her benefit last evening appeared to as great an advantage as could be deterrial, entrancing the large and brilliant suddence with the high talent evinced throughout the entire performance. This evening the Misses Webb appear in two beautiful pieces. The Little filipse will be produced for the first time on this occasion, with the usual chaste selection of songs and dances.

LEAH TOE FORSEES.—We are assured that everything is nearly completed for this great drama and that it will most positively be produced on Tureday next. It has been a long time in preparation and will be produced in excellent style in every detail. Our citizens are looking auxiously forward to this g cat event, and it is with pleasure that we are enabled to state the positive time when their wishes will be gratified. We undestrain that there is a great demand for seats which Mr. Grover ha "kindly desided to sell

without any extra charge. This will give all an equal chance to secure seats in advance.

A WORD OF ADVICE TO STREET RAILROAD

COMDUCTORS.—At the several intersections of the
Washington and Georgetown railroad a very great
annoyance is produced by passengers getting on
and others getting off the cars at the same time.

Coastloadily we notice a conductor who endeavors
to prevent the annoyance by saking the passengers on the outside to wait until those ireids who
may derive to do so have had time to get out. Not
unfrequently laddes are compelled to stand up irside the car, and knocked about by man who seem
to have left their manners at home for the purpose
of securing a confortable seat.

This should not be, and if the conductors will use
a little exertion the evil can be remedied. At the
